

## Application for limited registration in the public interest

Profession: **Dental**

Part 7 Division 6 of the Health Practitioner Regulation National Law (the National Law)

This form is for appropriately qualified, overseas-trained dental practitioners, including dental specialists who do not qualify for general registration and who wish to apply for limited registration in the public interest under section 68 of the National Law.

A dental practitioner registered under this category of registration will not be eligible to undertake any practice not associated with the approved public interest position.

In general, the Dental Board of Australia (the Board) will only register a dental practitioner under this category of registration for a limited time and/or for a limited scope.

Limited registration in the public interest is for dental practitioners who will usually be visiting from overseas for a short period and hold relevant qualifications in a division of dental practitioners. Examples of where it might be in the public interest to register a dental practitioner in this category include:

- an unexpected situation where a (natural) disaster has occurred
- for an expert to demonstrate a procedure or participate in a workshop, or
- to fill a short term position or a short term exchange of practice with a dental practitioner.

In order to grant limited registration in the public interest the Board must be satisfied that it is in the public interest for the dental practitioner to practise the profession given the dental practitioner's qualifications and experience.

An overseas dental practitioner is not required to have limited registration in the public interest when they are delivering a presentation, lecturing or undertaking simulation activity. In this circumstance the practitioner must not use a protected title under the National Law or hold themselves out as a registered dental practitioner in Australia, nor may they undertake clinical practice or supervise dental practitioners or students in any capacity in Australia.

Limited registration in the public interest is not an alternative for limited registration in teaching or research, or in postgraduate training and supervised practice. Limited registration in the public interest is not an alternative or suitable type of registration for dental practitioners who are working towards gaining general registration.

Applications may be submitted up to four months in advance.

## Information and definitions

### AUSTRALIAN NATIONAL GUIDELINES FOR THE MANAGEMENT OF HEALTHCARE WORKERS LIVING WITH BLOOD BORNE VIRUSES AND HEALTHCARE WORKERS WHO PERFORM EXPOSURE PRONE PROCEDURES AT RISK OF EXPOSURE TO BLOOD BORNE VIRUSES

The Communicable Diseases Network Australia (CDNA) has published these guidelines. The following is a summary of the requirements in the CDNA guidelines:

Healthcare workers who perform exposure prone procedures (EPPs) must take reasonable steps to know their blood-borne virus (BBV) status and should be tested for BBVs at least once every three years. They are also expected to:

- have appropriate and timely testing and follow up care after a potential occupational exposure associated with a risk of BBV acquisition
- have appropriate testing and follow up care after potential non-occupational exposure, with testing frequency related to risk factors for virus acquisition
- cease performing all EPPs if diagnosed with a BBV until the criteria in the guidelines are met, and
- confirm that they comply with these guidelines when applying for renewal of registration if requested by their board.

Practitioners who are living with a blood-borne virus and who perform exposure-prone procedures have additional requirements. They are expected to:

- be under the ongoing care of a treating doctor with relevant expertise
- comply with prescribed treatment
- have ongoing viral load monitoring at the appointed times
- not perform EPPs if particular viral load or viral clearance criteria are not met (see detailed information in the guidelines according to the specific BBV)
- seek advice regarding any change in health condition that may affect their fitness to practise or impair their health
- release monitoring information to the treating doctor
- if required, release de-identified information to the relevant area of the jurisdictional health department/Expert Advisory Committee, and
- if required, release health monitoring information to a designated person in their workplace in the event of a potential exposure incident to assess the requirement for further public health action.

Additional information can be found in the CDNA *Australian National Guidelines for the Management of Healthcare Workers Living with Blood Borne Viruses and Healthcare Workers Who Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses* available online at <https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en>

### CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

Practitioners must meet the minimum requirements set out in the Board's continuing professional development (CPD) registration standard.

Practitioners must complete a minimum of 60 hours of CPD activities over a three-year CPD cycle:

- a minimum of 48 of the 60 hours (80 per cent) must be spent on clinically or scientifically-based activities, and
- a maximum of 12 of the 60 hours (20 per cent) can be spent on non-scientific activities.

Each three-year CPD cycle covers three registration periods from 1 December to 30 November.

The Board encourages practitioners to engage in CPD activities each year, gradually accumulating a minimum of 60 hours over the three-year CPD cycle.

### CRIMINAL HISTORY

**Criminal history** includes the following, whether in Australia or overseas, at any time:

- every conviction of a person for an offence
- every plea of guilty or finding of guilt by a court of the person for an offence, whether or not a conviction is recorded for the offence, and
- every charge made against the person for an offence.

Under the National Law, spent convictions legislation does not apply to criminal history disclosure requirements. Therefore, you must disclose your complete criminal history as detailed above, irrespective of the time that has lapsed since the charge was laid or the finding of guilt was made. The Board will decide whether your criminal history is relevant to the practice of your profession. You are not required to obtain or provide your Australian criminal history report, Ahpra will obtain this check on your behalf. But if you have not given us certified proof of identity documents since October 2019, you will need to do this first.

Any document containing a photograph must be annotated with the statement 'I certify that this a true copy of the original and the photograph is a true likeness of the person presenting the document as sighted by me.'

You may be required to obtain international criminal history reports.

## IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

An illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples you do not need to tell us about include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

The National Law requires you to declare any such impairments at the time of renewal, including details of the impairment and how it is managed.

## PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care.

It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

## PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as a dental practitioner in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard.

Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.
