

Application for limited registration for postgraduate training Profession: Dental

Part 7 Division 6 of the Health Practitioner Regulation National Law (the National Law)

This form is for appropriately qualified, overseas-trained dental practitioners who do not qualify for general registration and who wish to apply for limited registration to undertake postgraduate training under section 66 of the National Law as in force in each state and territory.

A dental practitioner registered under this category of registration will **not** be eligible to undertake any practice not associated with the training.

Dentists with limited registration for postgraduate training must maintain their enrolment in the designated postgraduate training program. If there is any change to the enrolment you must notify the Board immediately and you may need to submit a new application for registration to the Board.

For dental practitioners enrolled in an approved postgraduate program of study, the limited registration – postgraduate training is inextricably linked to the active participation and enrolment in the approved program of study.

Where active participation and enrolment ceases or is terminated, the limited registration – postgraduate training will end after 30 days.

Limited registration must be renewed annually and can be renewed a maximum of three times.

The Board expects that applicants seeking limited registration for postgraduate training will be supported by the education provider in relation to this application.

Applicants should familiarise themselves with all requirements for registration as a dental specialist. Refer to the Board's Dental specialist registration standard for details. Applications may be submitted up to six months in advance.

This application comprises:

- **Part A:** to be completed by the applicant
- **Part B:** to be completed by the education provider
- **Part C:** to be completed by the supervisor, and
- **Part D:** to be completed by the applicant.

It is important that you refer to the Board's registration standards, codes and guidelines when completing the form, in particular the Board's *Limited registration for postgraduate training or supervised practice (section 66) registration standard*, which contains information about the requirements for this type of registration. These can be found at www.dentalboard.gov.au

AUSTRALIAN NATIONAL GUIDELINES FOR THE MANAGEMENT OF HEALTHCARE WORKERS LIVING WITH BLOOD BORNE VIRUSES AND HEALTHCARE WORKERS WHO PERFORM EXPOSURE PRONE PROCEDURES AT RISK OF EXPOSURE TO BLOOD BORNE VIRUSES

The Communicable Diseases Network Australia (CDNA) has published these guidelines. The following is a summary of the requirements in the CDNA guidelines:

Healthcare workers who perform exposure prone procedures (EPPs) must take reasonable steps to know their blood-borne virus (BBV) status and should be tested for BBVs at least once every three years. They are also expected to:

- have appropriate and timely testing and follow up care after a potential occupational exposure associated with a risk of BBV acquisition
- have appropriate testing and follow up care after potential non-occupational exposure, with testing frequency related to risk factors for virus acquisition
- cease performing all EPPs if diagnosed with a BBV until the criteria in the guidelines are met, and
- confirm that they comply with these guidelines when applying for renewal of registration if requested by their board.

Practitioners who are living with a blood-borne virus and who perform exposure-prone procedures have additional requirements. They are expected to:

- be under the ongoing care of a treating doctor with relevant expertise
- comply with prescribed treatment
- have ongoing viral load monitoring at the appointed times
- not perform EPPs if particular viral load or viral clearance criteria are not met (see detailed information in the guidelines according to the specific BBV)
- seek advice regarding any change in health condition that may affect their fitness to practise or impair their health
- release monitoring information to the treating doctor
- if required, release de-identified information to the relevant area of the jurisdictional health department/Expert Advisory Committee, and
- if required, release health monitoring information to a designated person in their workplace in the event of a potential exposure incident to assess the requirement for further public health action.

Additional information can be found in the CDNA *Australian National Guidelines for the Management of Healthcare Workers Living with Blood Borne Viruses and Healthcare Workers Who Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses* available online at <https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en>

IMPAIRMENT

The National Law defines impairment as 'a physical or mental impairment, disability, condition or disorder (including substance abuse or dependence) that detrimentally affects or is likely to detrimentally affect your capacity to practise the profession'.

An illness or health condition that is safely managed is not the same as impairment, as these do not have a detrimental impact on your capacity to practise. Examples you do not need to tell us about include:

- wearing prescription glasses to correct your vision or hearing aids to correct your hearing, or
- seeing a psychologist for anxiety and following a treatment plan.

The National Law requires you to declare any such impairments at the time of renewal, including details of the impairment and how it is managed.

PRACTICE

Practice means any role, whether remunerated or not, in which the individual uses their skills and knowledge as a practitioner in their regulated health profession. Practice is not restricted to the provision of direct clinical care. It also includes using professional knowledge in a direct non-clinical relationship with patients or clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of health services in the health profession.

PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as a dental practitioner in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard.

Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.

REGENCY OF PRACTICE

To ensure that you are able to practise competently and safely, you **must** have recent practice in dentistry and in any field of practice in which you intend to work during the period of registration for which you are applying.

If in the previous five years you have not practised in dentistry or the field of practice in which you intend to work during the period of registration, you will need to satisfy the Board's recency of practice requirements before your application for registration can be decided.

Recent graduates who apply for registration within the first year of graduation will not need to meet the recency of practice requirements.
